Falcon Waterfree Urinals

Manufacturer:

Falcon Waterfree Technologies

Los Angeles, CA

310-209-7250

www.falconwaterfree.com

Attributes:

Urinals operate on the basic principle that a layer of lighter-than-water fluid floats on top of the urine in a trap. Additional urine runs through this layer and down the drain. This system offers the hygiene and maintenance advantages of not having anything to flush, in addition to the obvious water savings.

AC Series Heat Recovery

Manufacturer:

Doucette Industries, Inc.

York, PA

800-445-7511

www.doucetteindustries.com

Attributes:

Doucette's desuperheaters use waste heat from air conditioners to preheat water for domestic uses, saving energy for water heating and improving the efficiency for air conditioners of all sizes, from 5 to 200 tons.
