Disposal Rate Calculation
<p>Definition of Terms</p> <p>Reporting-Year Disposal Amount (tons) â€" defaults to the total tonnage disposed in the Reporting-Year by a jurisdiction as reported to the Disposal Reporting System (DRS). Disposal contains all jurisdiction waste that was disposed in CA landfills, transformation facilities, and exported out-of-state. Any changes will require you submit a Reporting Year Disposal Modification Certification Sheet (PDF). See Userâ€™s Guide or contact LAMD representative if uncertain.</p> <p>Disposal Reduction Credits - the EAR calculator will subtract these credits from your requested total in the Reporting-Year Disposal Amount field. Requesting credits will require you submit a Reporting Year Disposal Modification Certification Sheet (PDF). Descriptions of these credits can be found on that sheet. See EAR Userâ€™s Guide or contact LAMD representative if uncertain.</p> <p>Reporting-Year Transformation Waste (tons) â€" defaults to the total tonnage of waste sent in the Reporting-Year by a jurisdiction to a CalRecycle-permitted transformation facility as reported to the Disposal Reporting System (DRS). Transformation is factored into the Per Capita rate only, and is not deductible. To eliminate the Per Capita credit for transformation tonnage, change the <i>Reporting-Year Transformation Waste (tons)</i> number to 0.00.</p> <p>Reporting-Year Population â€" January 1st estimate of the number of inhabitants occupying a jurisdiction in the Reporting-Year as prepared by the California Department of Finance (DOF)</p> <p>Reporting-Year Employment â€" the estimate of the annual average number of employees by jurisdiction in the Reporting-Year as prepared by the California Employment Development Department (EDD)</p> <p>Additional Definitions - for additional definitions and/or acronym descriptions, see the LGCentral Glossary.</p>
